

# **AIRTEX**

**Neutralizer of bad smells and refreshing agent for fabrics**

## **COMPOSITION**

Mixture of excellent perfuming essences.

## **CHARACTERISTICS**

- It gives fabrics a pleasant long-lasting fragrance.
- It very easily attacks and neutralizes unpleasant smells on clothes.
- It produces a refreshing action on fibres comparable to the fragrance obtained by drying clothes in the open air.
- It actively preserves textile fibres from foreign agents' attacks, such as moulds, bacteria and insects.

## **HOW TO USE**

### **DURING IRONING**

Apply Airtex on fabrics from a distance of about 25 cm, then proceed with ironing. Even if it is utilised after ironing, it does not modify its result.

### **IN THE WARDROBE**

Atomize Airtex on the clothes that are present in the wardrobe or on walls from a distance of about 25 cm, close the door for the product's action to uniformly spread throughout the whole internal surface. Repeat the operation on average every 15 days.
