

## **CLEANTEX**

Liquid spray or stain removing foam, very efficient strengthening agent on stains hard to be removed before both hand washing or washing by washing machine

**CHARACTERISTICS:** CLEANTEX is an advanced mix of surfactants and solubilizing agents formulated to carry out a strong action on a wide range of stains which could be difficult to eliminated by a standard water washing. Perfect on several kinds of stains, having different origins (lipstick, oil, edible fat, tar, chocolate, blood, wax, grass, grease for shoes, glue, pen ink, etc.). CLEANTEX shall be applied on stained parts of clothes and let work for several minutes before proceeding with washing, with no need of rubbing or brushing the item. It can be very easily rinsed. CLEANTEX does not modify colours on fabrics and it increases in a synergetic manner the cleansing power of any further washing process. CLEANTEX is non-corrosive for washing machines and it can be utilised with any kind of detergent, but its best performance can be obtained if it is used in combination with **TEX** line (Lanatex, Cotontex, etc.) detergents.

**HOW TO USE:** Apply on dirty areas of clothes, let it work for several minutes, then proceed with washing. For a good result utilize CLEANTEX at a short distance from the fabric to be treated.
