

EGUALTEX

Colour equalizing spray, reviving and darkening agent for faded areas in dark or suede items with sliding effect during ironing.

CHARACTERISTICS: EGUALTEX is active on any kind of fabric, it revives colours in faded areas that after dry cleaning often appear on dark raincoats, windcheaters or coats. EGUALTEX revives suede items and brightens the items made of glossy leather.

EGUALTEX can also give brightness back to brightly coloured fabrics. EGUALTEX increases iron sliding on fabrics during ironing.

HOW TO USE: Lay the item on a plain surface and identify the area to be treated. Brush the area to be treated with care.

Atomize EGUALTEX from a certain distance from the item paying attention not to create drops.
